| <b>Summary of the event:</b> | <p>Dept. of Electronics and Computer Engineering Organized a one day Industry Visit at <b>True View @Warner Electronics pvt ltd</b> , Chhatrapati Sambhajanagar on 15/04/2026. Total 35 students from third year and 3 faculties from Electronics and Computer Engineering visited <b>True View @Warner Electronics pvt ltd</b> , Chh Sambhaji Nagar.</p> <p>True View @ Warner Electronics Pvt. Ltd., Chh Sambhaji nagar is a well-known company in the field of electronic surveillance and security solutions. It specializes in providing advanced CCTV systems, monitoring devices, and smart security technologies for various applications. The company is recognized for delivering reliable and high-quality electronic products and services. With a strong focus on innovation, it continuously adopts modern technologies to enhance safety and efficiency. True View caters to both industrial and residential sectors by offering customized security solutions. Its commitment to quality and customer satisfaction has made it a trusted name in the electronics industry.</p> <p><b>Flow of Industry visit was:</b></p> <ul style="list-style-type: none"> <li>• Introduction &amp; Briefing – Students were welcomed, given safety instructions, and introduced to the company and its processes.</li> <li>• Plant Tour – Students observed the wiring harness production line, machinery, quality checks, and assembly operations.</li> <li>• Interaction &amp; Conclusion – Students interacted with engineers, asked questions, and the visit ended with a summary and key takeaways.</li> </ul> |
| <b>Outcome(s):</b>           | <p><b>visit objectives:</b></p> <ul style="list-style-type: none"> <li>• To understand real-world industrial processes and workflow beyond classroom learning.</li> <li>• To observe the manufacturing operations, machinery, and quality practices used in the company.</li> <li>• To interact with industry experts and gain insights into career skills and professional expectations.</li> </ul> <p><b>visit outcomes:</b></p> <ul style="list-style-type: none"> <li>• Students gained practical exposure to industrial manufacturing and quality control processes.</li> <li>• They understood how wiring harness systems are designed, assembled, and</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
